About the Author

Ted Alspach is the author of more than 35 books on desktop publishing and graphics as well as hundreds of articles and reviews on related topics, including the *Illustrator Bible* series and the *Illustrator For Dummies* series. Ted was the Group Product Manager for Illustrator and the Creative Suite at Adobe Systems for more than seven years. Ted also runs Bézier Games (<http://games.bezier.com>), a board game publishing company, and has designed more than a dozen games and expansions for popular games, including *Beer & Pretzels*, *Rapscallion*, *Seismic* (Atlas Games), *Start Player*, and *Ultimate Werewolf*.

Preface	xxiii
Acknowledgments	xxvii
Part I: Illustrator Basics	1
Chapter 1: What's New in Illustrator CS5?	3
Enhanced Strokes and Brushes.....	3
Path Join Enhancement.....	5
Select Behind Downgrade	6
Drawing Modes.....	6
Perspective Grid.....	7
The Artboards Panel.....	7
Artboard Rulers.....	8
Gradient Mesh Point Transparency	8
Shape Builder Tool.....	8
Symbol Enhancements.....	8
Flash XML Graphics.....	9
Align to Pixel Grid	9
Resolution-Independent Effects.....	9
Summary	9
Chapter 2: Understanding Illustrator's Desktop	11
Picasso Meets Illustrator: Getting Started	11
Getting started with Illustrator	12
Quitting Illustrator	12
Working with Illustrator's Interface.....	13
Working in the document window	14
Working with the Tools panel.....	17
Viewing the tool tips	19
Using the panels	19
Using Illustrator's menus.....	23
Using the status bar.....	25

Contents

Navigating Around Your Document	26
Understanding the Zoom tool	26
Using the Zoom tool.....	27
Other zooming techniques	28
Zooming with the Navigator panel	30
Using the scroll bars to view your document.....	31
Scrolling with the Hand tool	32
Scrolling with the Navigator panel	33
Opening a new window	33
Using Illustrator's Modes.....	33
Working in Outline mode versus Preview mode	33
Understanding Overprint Preview mode	35
Understanding Pixel Preview mode	36
Using and creating custom views.....	37
Using screen modes.....	37
Using the Edit Commands	37
Using the Clear command.....	38
Cutting, copying, and pasting	39
Undoing and redoing	40
Summary	40
Chapter 3: Working with Illustrator Documents.	41
Setting Up a New Document.....	41
Modifying the Setup of a Document.....	44
Adjusting the Bleed and View Options	44
Working with Transparency options	46
Changing Type Options	46
Artboards.....	46
Choosing the artboard measurement units	47
Working with the Artboards panel	47
The Artboard tool.....	48
Changing the artboard size using the Control panel	48
Opening and Closing Illustrator Files.....	51
Saving Files.....	51
Using the Save As command	53
Understanding the Save a Copy command	53
Reverting to the last saved version	54
Saving for Web & Devices option	54
Understanding file types and options	55
Using Illustrator's compatibility options.....	55
Saving as Illustrator EPS.....	56
Saving files as Adobe PDF	58
Saving files in SVG	60
Using the Export Command	61
Placing Art	63

Placing Photoshop Art in Illustrator: Understanding Vectors and Pixels	64
Placing raster images	65
Using the Clipboard	66
Dragging and dropping	66
Working with Document and File Information	66
Looking at document information	67
Saving document information	68
Finding file information	68
Summary	68
Chapter 4: Understanding Drawing and Painting Techniques	69
Working with Paths	69
Understanding types of paths	70
Understanding anchor points	71
Understanding control handles and control handle lines	72
Understanding how fills and strokes relate to paths	76
Drawing Paths with Illustrator Tools	79
Using the Pencil tool	79
Working with the Smooth tool	85
Erasing with the Path Eraser tool	86
Drawing with the Pen tool	87
Using the various line tools	94
Using the Paintbrush tool	101
Using brushes	103
Using the Calligraphic brush	104
Creating with the Scatter brush	106
Working with the Art brush	108
Creating tiles using the Pattern brush	109
Painting with the Bristle Brush	111
Making a custom brush	112
Understanding colorization tips	113
Checking out the Brush libraries	114
Using Variable Width Strokes	116
Summary	116
Chapter 5: Creating Objects, Graphs, and Symbols	119
Making Basic Shapes	119
Drawing shapes from their centers	122
Drawing symmetric shapes	122
Drawing shapes at an angle	122
Drawing rectangles using the Rectangle tool	123
Defining properties with the Rectangle dialog box	124
Drawing rounded rectangles and squares	125
Using the Round Corners command to round straight corners	127
Rounding corners backward	128

Contents

Drawing ellipses	129
Creating polygons	130
Seeing stars	132
Working with the Flare Tool.....	136
Understanding Flare options	136
Using a flare to add highlights.....	137
Editing a flare.....	138
Filling and Stroking Shapes.....	138
Using fills.....	139
Using strokes.....	140
Combining strokes with fills.....	142
Applying fills and strokes	143
Adding arrowheads	144
Creating Shapes with the Shape Builder Tool.....	146
Creating and Embellishing Graphs and Charts.....	147
Importing Microsoft Excel graph data	148
Making and editing graphs.....	149
Customizing graphs	151
Choosing a graph type	152
Creating Flowcharts, Diagrams, and Site Maps.....	156
Using Symbols	157
Spraying with the Symbol Sprayer tool.....	157
Making a new symbol	160
Using the Symbol tool.....	161
Summary	162
Chapter 6: Learning How to Select and Edit	163
Selecting a Path for Editing	163
Understanding the selection methods.....	163
Deciding which selection tool to use	168
Selecting, moving, and deleting entire paths.....	172
Using different selection options	174
Keeping and labeling a selection.....	180
Custom paint style selections	181
Editing Paths in Illustrator	181
Editing with anchor points.....	182
The Add Anchor Points function.....	183
Removing anchor points.....	185
Simplifying paths by removing anchor points	186
Splitting paths.....	187
Sectioning and repeating paths.....	188
Reshaping paths	189
Cleaning up a path	190
Offsetting a path.....	192
Outlining a path.....	193

Aligning and distributing points.....	194
Joining.....	195
Converting Anchor Points.....	197
Converting Smooth Points.....	197
Converting straight corner points.....	198
Converting combination corner points.....	199
Converting curved corner points.....	200
Using Illustrator's Pathfinder Functions.....	200
Setting the Pathfinder options.....	201
Adding to a shape.....	202
Subtracting from a shape.....	203
Intersecting and excluding shapes.....	204
Using the Expand button.....	205
Dividing paths.....	205
Trimming paths.....	206
Merging paths.....	206
Cropping paths.....	207
Outlining paths.....	208
Using Minus Back.....	208
Trapping.....	208
Summary.....	209
Chapter 7: Understanding Color, Gradients, and Mesh	211
Working with the Swatches Panel.....	211
Using the color swatches.....	212
Using the Swatches popup menu.....	213
Using other swatch libraries.....	216
Using color space options in the Color panel.....	218
Using the Color Ramp.....	221
Working with gamut.....	221
Spot colors.....	222
Applying colors with the Color panel.....	223
Transferring color from one object to another.....	223
Using Transparency.....	225
Defining transparency between objects, groups, and layers.....	227
Working with opacity.....	228
Using blending modes.....	228
Isolating blending.....	229
Knocking out a group.....	230
Using opacity, clipping, and invert masks.....	230
Viewing the transparency grid.....	232
Printing and flattening.....	234
Transparency and type.....	235
Separating transparent objects.....	235
3-D, symbols, and transparency.....	236

Creating Gradients	238
Using preset gradients	239
Using the Gradient panel.....	239
Working with the Gradient tool	240
Expanding gradient objects	244
Printing gradients.....	244
Adding Realism with Mesh.....	245
Enhancing with highlights and color.....	246
Adding multiple highlights.....	247
Summary	250

Part II: Putting Illustrator to Work **251**

Chapter 8: Using Illustrator to Organize Objects 253

Locking and Hiding Objects	253
Locking objects	254
Hiding objects.....	254
Setting object attributes.....	255
Understanding Object Stacking Order	256
Controlling the stacking order for objects	256
Understanding the stacking order for text	257
Using a stacking order for strokes and fills	258
Pasting objects in front of and behind selected objects	258
Creating and Deconstructing Groups	258
Grouping objects.....	259
Ungrouping.....	259
Layering Your Artwork	260
Getting started with layers.....	261
Using the Layers panel	263
Moving and layers.....	265
Using the Layers panel's menu	266
Working with Templates in Illustrator	268
Placing a template on a layer	268
Using a template to trace an image	269
Using Align and Distribute	271
Measuring an Image.....	272
Changing the measurement units	272
Using the Measure tool.....	274
Sizing objects with the Transform panel.....	276
Using rulers.....	276
Measuring with objects.....	277
Using Offset Path (for equidistant measuring)	277

Working with Grids.....	278
Creating grid color, style, and spacing	279
Spinning grids.....	280
Perspective grids	281
Using Guides	283
Creating guides	283
Locking, unlocking, and moving guides.....	283
Releasing guides.....	284
Deleting guides	284
Changing guide preferences	284
Understanding Smart Guides	285
Measuring for Printing.....	287
Tiling	287
Creating crop marks.....	289
Summary	290
Chapter 9: Working with Type	293
Understanding Fonts	293
Understanding bitmap fonts.....	293
Understanding PostScript fonts	294
Understanding TrueType fonts.....	294
Understanding OpenType fonts	294
Adding type with Multiple Master fonts	295
Understanding Basic Type Menu Commands.....	295
Using the Font submenu	296
Understanding the Recent Fonts submenu	298
Choosing a font size	298
Using alternate glyphs.....	298
Using the Type Tools	299
Using the Type tool.....	300
Using the Area Type tool.....	301
Using the Type on a Path tool	301
Using the Vertical Type tool	302
Creating Individual Type	303
Placing Area Type in a Rectangle.....	304
Working with Type Areas	305
Creating Area Type	306
Using area type functions	307
Choosing good shapes for area type	308
Outlining areas of area type.....	308
Selecting carefully with area type	308
Changing the area, not the type	309
Flowing area type into shapes	310

Contents

Flowing area type into shapes	311
Wrapping type around paths.....	311
Placing Type on a Path.....	311
Adding effects to type on a path	313
Using vertical type.....	314
Selecting Type.....	316
Editing Type	317
Using the Type Panels.....	318
Working with the Character panel	318
Working with the Paragraph panel.....	325
Working with the OpenType panel.....	330
Working with the Tabs panel	330
Using Advanced Type Functions.....	332
Threading text.....	332
Unthreading text	333
Fitting a headline	333
Finding and replacing text	333
Finding fonts	335
Checking spelling.....	335
Changing case	337
Using Smart Punctuation.....	338
Adding rows and columns.....	339
Showing hidden characters	340
Changing type orientation	341
Updating legacy text.....	341
Exporting and placing	341
Creating Outlines.....	342
Distorting characters for special effects.....	343
Masking and other effects.....	343
Avoiding font conflicts by creating outlines.....	344
Understanding hinting	345
Understanding Other Type Considerations	345
Summary	346
Chapter 10: Using Creative Strokes and Fills with Patterns	347
Using Creative Strokes	347
Stroke essentials	348
Using the stroke charts.....	349
Creating parallel strokes.....	353
Creating map elements.....	356
Creating a highway.....	358
Creating Perfect Patterns.....	360
Using the default patterns	360
Creating custom patterns	362
Understanding pattern backgrounds and boundaries	363

Making seamless patterns	364
Creating symmetrical patterns	364
Creating line patterns and grids.....	364
Using diagonal-line and grid patterns.....	365
Using transparency and patterns together.....	367
Transforming patterns.....	368
Summary	369
Chapter 11: Applying Transformations and Distortions	371
Adding a Transformation with Tools.....	371
Rotating with the Rotate tool.....	375
Reflecting with the Reflect tool.....	375
Scaling with the Scale tool.....	378
Shearing with the Shear tool.....	378
Reshaping with the Reshape tool.....	379
Moving objects.....	381
Using the Free Transform tool.....	383
Working with the Transform Panel	384
Using Transform Each.....	385
Using Transformations	388
Creating cast shadows	389
Rotating into a path.....	389
Making tiles using the Reflect tool	390
Using transformation tools on portions of paths	392
Transforming patterns	393
Using Liquify Tools on Objects.....	394
Warping objects	395
Twirling objects	395
Puckering.....	395
Bloating.....	397
Scalloping	397
Crystallizing	397
Wrinkling	397
Distorting with Effects.....	400
Using free distortions	400
Using Pucker & Bloat.....	401
Roughening objects	403
Transforming objects.....	405
Tweaking transforms.....	405
Using the Twist command.....	407
Working with the Zig Zag effect	407
Using Warp Effects	411
Understanding Warp types.....	412
Summary	414

Chapter 12: Using Path Blends, Compound Paths, and Masks 415

Understanding the Difference between Blends and Gradients	415
Creating Path Blends.....	417
Defining Linear Blends.....	418
Working with Blend Options.....	420
Using the Blend option.....	420
Blending multiple objects.....	421
Editing a blended object.....	421
Releasing a blend.....	422
Expanding blends	422
Replacing the spine	422
Reversing the spine	424
Reversing front to back.....	424
Using nonlinear blends	425
Finding end paths for linear blends	427
Calculating the number of steps	428
Creating radial blends	429
Making a Color Blend	431
Using multiple colors with linear blends	431
Using guidelines for creating color linear blends	432
Creating Shape Blends	433
Complex-shape blending.....	433
Creating realism with shape blends	434
Blending symbols.....	436
Blending envelopes	438
Blending 3-D objects.....	438
Airbrushing shadows.....	441
Creating glows	442
Softening edges	442
Designing neon effects	444
Using Compound Paths	446
Creating compound paths.....	446
Releasing compound paths	447
Understanding holes	448
Overlapping holes.....	448
Creating compound paths from separate sets of paths.....	449
Working with type and compound paths.....	450
Finding Path Directions	451
Figuring out which way to go.....	452
Reversing path directions	452
Faking a compound path	454
Using Clipping Masks.....	454
Creating masks.....	455
Masking raster images	455

Using a mask with other masks	456
Releasing masks	456
Masking and printing	457
Masking and compound paths	457
Drawing within and behind masks	457
Summary	458
Chapter 13: Using Live Trace	461
Understanding Live Trace	461
Learning Live Trace Modes	463
Getting to know Outline mode.....	464
Using Tracing Result mode.....	465
Combining Outline and Tracing Result modes	465
Setting Live Trace Options	466
Understanding the Live Trace presets.....	466
Choosing custom Live Trace options.....	478
Tracing Raster Images with Live Trace	480
Summary	482
Chapter 14: Using Live Paint.	483
Understanding Live Paint.....	483
Setting the Live Paint Options.....	486
Using Live Paint.....	488
Summary	489
 Part III: Mastering Illustrator	 491
<hr/> Chapter 15: Working with Graphic Styles and Effects	<hr/> 493
Understanding How Graphic Styles Work	493
Using the Appearance panel.....	494
Working with the Graphic Styles panel	499
Using Effects	502
Understanding 3-D effects.....	503
Using Convert to Shape effects.....	503
Distorting and transforming effects	504
Creating Path effects.....	504
Understanding the Rasterize effect.....	505
Stylizing effects	506
Using SVG Filters effects	513
Warp effects	514
Creating Photoshop effects.....	514
Summary	514

Chapter 16: Creating 3-D in Illustrator	515
Using 3-D in Illustrator	515
Understanding the Three-Dimensional World	516
Changing from two dimensions to three dimensions	516
Three-dimensional positioning	516
Perspective and 3-D	517
Extruding and Revolving 2-D Objects	518
Extruding flat art	519
Extruding a stroke	520
Understanding bevels	521
Revolving objects	523
Rotating Objects	525
Changing the Appearance of Three-Dimensional Objects	526
The Surface characteristics	526
Understanding lighting	528
Lighting options	528
Using the Appearance panel with 3-D	530
Mapping 2-D art to 3-D surfaces	530
Using Other 3-D Techniques	534
Using gradients to make bumps and dents	534
Perspective drawing	534
Summary	535
Chapter 17: Customizing and Automating Illustrator	537
Who's Responsible for Illustrator?	537
Customization Options	537
Changing Preferences	539
Altering the Keyboard Increment option	539
Using the Constrain Angle option	539
Changing the Corner Radius option	541
Adjusting the General options	541
Changing the Selection & Anchor Display options	545
Changing Preferences for Type	546
The Size/Leading option	548
The Baseline Shift option	548
The Tracking option	548
The Type Object Selection by Path Only option	549
The Show Asian Options option	549
The Show Font Names in English option	549
Setting the Number of Recent Fonts option	549
Choosing a Font Preview size	549
Enable Missing Glyph Protection	549
Use Inline Input for Non-Latin text	549

Using Units & Display Performance.....	550
Changing Units settings.....	550
Changing Display Performance	551
Changing Guides & Grid Preferences.....	551
Adjusting Smart Guides	552
Changing Display Options	553
Altering angles (for construction guides)	553
Changing the Snapping Tolerance.....	553
Adjusting Slices Preferences	553
Changing Hyphenation.....	554
Adjusting the Plug-Ins & Scratch Disks	555
Customizing the User Interface	555
Customizing the File Handling & Clipboard.....	556
Setting the Appearance of Black Options.....	557
Altering Placement and Tools Panel Value Preferences.....	558
Adding Keyboard Customization	558
Knowing What You Can't Customize	558
Using Actions	559
Using a Default Action	559
Creating a new action	561
Creating a new set	561
What is recordable?.....	561
Duplicating and deleting an action	562
Starting and stopping recording	562
Inserting a menu item	563
Inserting a stop	563
Action Options.....	563
Playback Options	563
Inserting a selected path.....	564
Selecting an object.....	564
Clearing, resetting, loading, replacing, and saving actions	565
Summary	566

Part IV: Getting Art Out of Illustrator **567**

Chapter 18: Understanding PostScript and Printing 569

Understanding the Benefits of PostScript.....	570
Using PostScript.....	571
Knowing What to Do Prior to Printing.....	571
Changing the artboard size.....	571
Printing composites.....	572
Working with gray colors.....	576

Contents

Using the Separation Setup	577
Understanding the printer's marks and bleeds.....	578
Changing printer information.....	578
Changing the page size.....	578
Changing the orientation.....	579
Understanding emulsion	581
Changing from positive to negative to positive	581
Working with different colors	581
Outputting a Color-Separated File	582
Using spot color separations.....	582
Printing process color separation.....	584
Choosing numerous colors.....	584
Combining spot and process color separations.....	587
Using Other Applications to Print	587
Understanding Trapping	588
Understanding misaligned color separations	590
Knowing how much you need to trap	591
Trapping Illustrator files	592
Using complex trapping techniques in Illustrator	593
Summary	594
Chapter 19: Creating Web Graphics	595
Designing for the Web versus Designing for Print	595
Illustrator and the Web — the Basics	596
Understanding Pixel Preview mode	597
Using Web-safe colors.....	601
Understanding hexadecimal colors.....	603
Optimizing and Saving Web Graphics	603
Introducing the Save for Web & Devices dialog box	604
Previewing Web graphics	604
Learning the Web-graphic formats	607
Choosing output options.....	610
Creating Vector Graphics for the Web.....	614
Using Flash graphics	614
Creating SVG files	616
Understanding Web Slicing	621
Object-Based Web Slicing.....	622
Working with slices.....	624
Understanding CSS layers	625
Getting Interactive	626
Specifying an image map.....	626
Creating animations	627

- Using Data-Driven Graphics to Streamline Design Work 631
 - Understanding variables 632
 - Using the Variables panel 632
 - Understanding scripting 633
 - Scripting versus actions 633
 - Setting up a data-driven graphics template 634
- Using FXG to Enhance Flex-based Workflows 637
- Summary 638
- Chapter 20: Illustrator Workflow 639**
 - Project Background 639
 - Building the Documents 641
 - Setting up the document 641
 - Creating the front cover 641
 - Creating the box sides 645
 - Creating the box bottom 647
 - Preparing for production 649
 - Summary 650
- Appendix: Shortcuts in Illustrator CS5 651**
